SIGN MOUNTS

At Maverick Materials Limited, we offer a range of premium sign mounts designed to provide a clean, modern, and secure finish for all your signage projects. Whether for indoor displays or outdoor installations, our mounts are built for durability, ease of use, and visual appeal.

Our sign mounts are available in two material options:

- Stainless Steel – Sleek and robust, available in four elegant finishes.
- Clear Acrylic – A minimalist, near-invisible option perfect for glass or clear signage panels, offering discreet support without compromising aesthetics.

3D LETTER MOUNTS

Our 3D Letter Mounts are designed to provide secure, precise, and professional installation for raised letters and signage elements. Made from clear injection-moulded acrylic, these mounts offer exceptional strength while maintaining a clean, minimalist look that doesn't distract from your design.

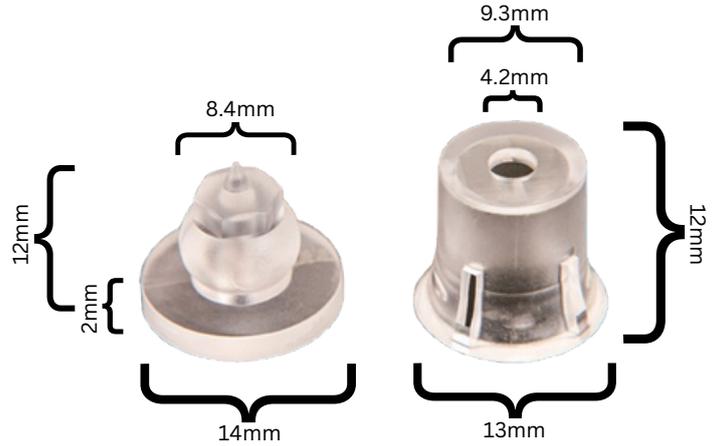

The transparency of the acrylic allows the mounts to virtually disappear once installed, making them ideal for floating 3D letters and logos used in retail, office, hospitality, and architectural signage. Each mount is designed for easy alignment and installation, whether you're using studs or adhesive-backed systems.

3D Letter Mounts	
Colour	Size (Diameter Ø x Length)
Clear Acrylic	<ul style="list-style-type: none"> • 14x14mm • 20x20mm
All 3D letter mounts are supplied with screws and anchors.	

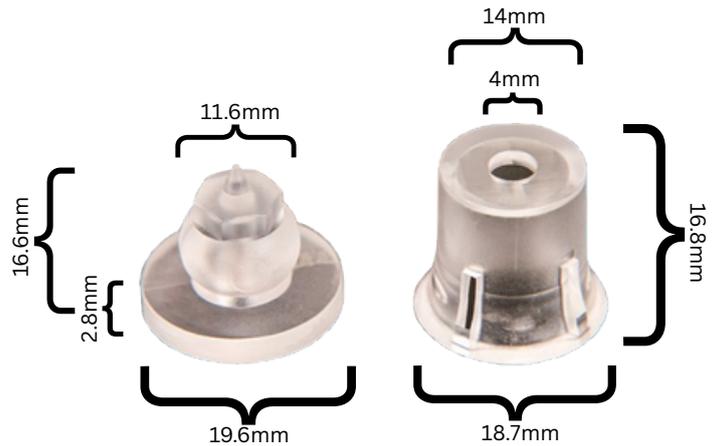

KEY FEATURES

- Clear Injection-Moulded Acrylic – Strong and durable, yet discreet in appearance.
- Perfect for Dimensional Letters – Supports a wide range of materials including acrylic, ACM, PVC, and metal.
- Quick & Easy Installation – Designed for precision mounting with optional stud or tape application.
- Professional Finish – Creates a clean “floating” effect with consistent spacing from walls or panels.

DOUBLE SIDED ACRYLIC UHB TAPE

Our Double-Sided Acrylic Foam UHB (Ultra High Bond) Tape is a transparent, high-performance bonding solution designed for demanding signage and display applications. Made from durable acrylic foam, this tape delivers exceptional holding power, offering a strong, permanent bond between a variety of surfaces without the need for screws or mechanical fasteners.

Its clear, seamless finish makes it ideal for glass, acrylic, metal, and smooth plastics, providing a clean, professional look—perfect for signage, panel mounting, architectural displays, and retail installations.

3D Letter Mounts	
Colour	Size (Thickness x Width x Length)
Clear Acrylic	1mm x 18mm x 33m

KEY FEATURES

- Crystal Clear Transparency – Virtually invisible for clean, aesthetic finishes.
- Ultra High Bond Strength – Designed for permanent, heavy-duty adhesion.
- Weather & UV Resistant – Holds strong indoors or outdoors in varying conditions.
- Shock Absorption & Flexibility – Adapts to different surfaces and materials with ease.
- Clean Application – No drilling, no mess—just peel, stick, and secure.
